

# Wherever, Whenever Communications.

Whether you're working from the office, at home, and anywhere in between, Elevate empowers you to communicate how you want, from wherever you work.

## ELEVATE DESKTOP APP:

**A single application to help teams stay engaged and connected**

Place and receive calls using your business phone number, manage voicemails, chat with co-workers, hop on a quick video conference, access your files and more—all from a single application.

**GET THE APPS!**

### Team Chat:

Communicate with colleagues using individual and group chat

### Video Conferencing:

Meet with up to 30 participants on HD video and up to 200 by phone

**Files:** Access and share files securely between colleagues

**Calling:** Place calls to internal and external contacts using your business phone number

**Integrated Company Directory:** Easily access your company contacts

**Webcam:** Use your computer's webcam to meet face-to-face

Start meetings, place calls, search in chat, add participants to any chat

HD video conferencing

**Accessory Earbuds or Headset:** With the Elevate desktop app, you no longer need a phone when your PC becomes the phone

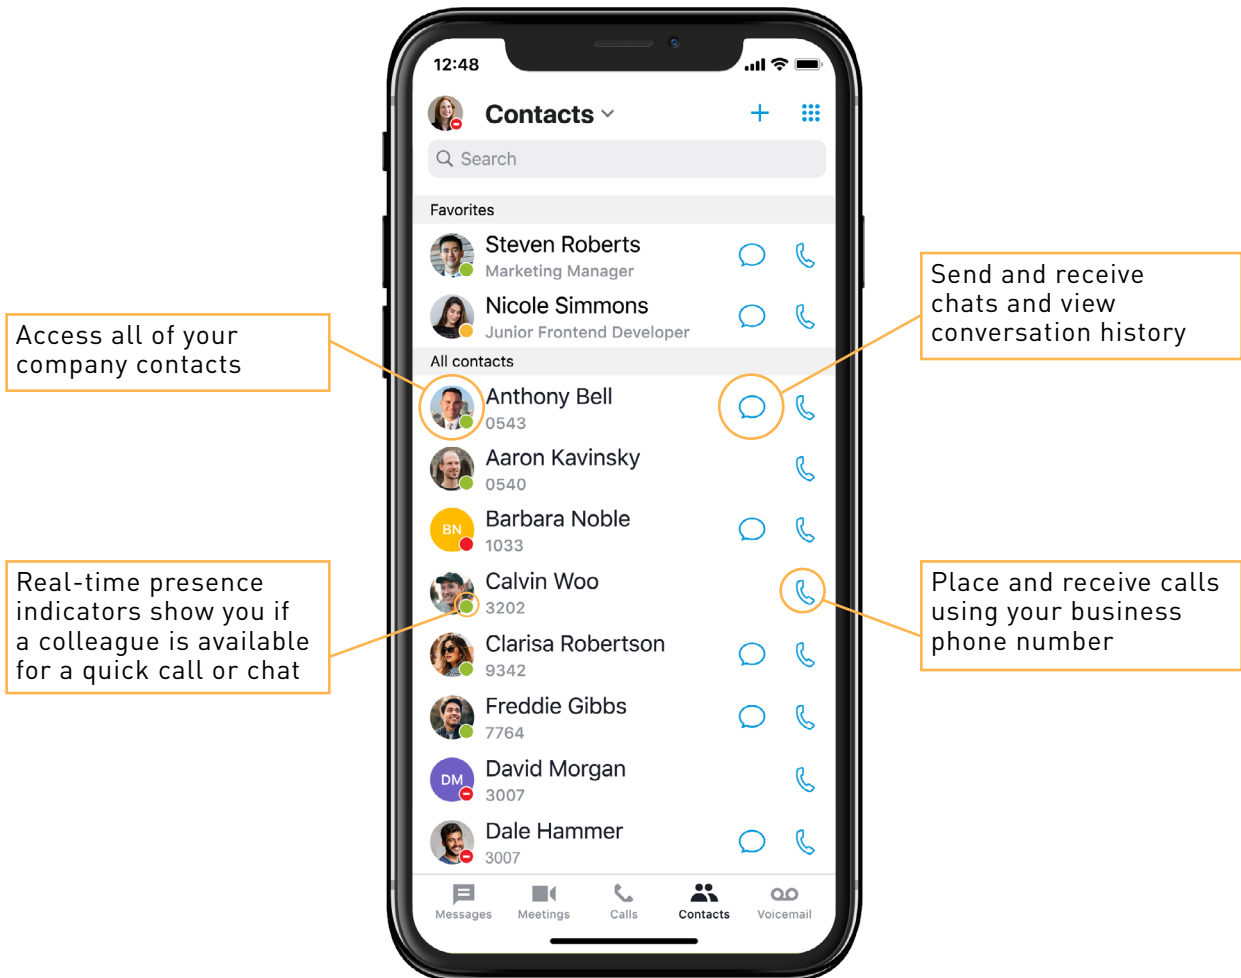

**Presence:** See at-a-glance if your colleagues are available to collaborate

## ELEVATE MOBILE APP:

### Take your work with you, wherever you go

Take your business phone number, conversations, and more with you wherever you go. All conversations sync across mobile and desktop applications – so you can take your work with you, wherever you go.

Download the apps to get the most out of Elevate
